

# Razorblade Raptor

Victorius

My claws are cutting deep  
Your flesh and blood is what I need  
I am a hunter in disguise  
You are my meal for tonight  
My fangs are sharp, made of steel  
Red-eyed beast, fury machine  
I aim my target, ready to kill  
I hunt you down for my fill

Cyber-eyes are stalking you  
I am your killer, your flesh will be mine

Razorblade Raptor – claws made of steel  
Ripping and killing, this power you feel  
Razorblade Raptor – attack from behind  
Faster than bullets, they're faster than light  
Razorblade Raptor

You try to run, you try to hide  
But you know you won't survive  
The predator will never stop  
To your last breath, your last drop  
Hungry, lurking in the dark  
I can hear your pounding heart  
My instinct to smell your fear  
Will let you know your end is near

Cyber-eyes are stalking you...

Razorblade Raptor...
