

# Shadowwarriors

Victorius

Born into a dynasty full of fear and anarchy  
Warlords kill and fight for supremacy  
We are the ones, unchained by the sword  
Chosen for the way of the great warrior

Oh, shogun without fear  
We will fight the shattered empire  
Mighty shinobi, out of the mist the shadows retreat

Here we are sworn to fight  
In darkness we strike  
Shadow warriors ninja!  
Steel in our hand  
Out of the black hide and attack  
Deadly shadows will arise the hunters of the night

With justice and honour, we fight for centuries  
In blood we paint the pages of our history  
We are the ones from the stories they have told  
A long forgotten myth a legend unfolds

Oh, shogun without fear  
We will fight the shattered empire  
Mighty shinobi, out of the mist the shadows retreat

Here we are sworn to fight  
In darkness we strike  
Shadow warriors, ninja!  
Steel in our hand  
Out of the black hide and attack  
Deadly shadows will arise the hunters of the night
