Space Ninjas from Hell

Victorius

Damned to planet hell, so far from life
Cursed by evil spell, we are doomed by mankind
Roaming in the dark, beyond time and space
Waiting for return and come home again

Back from hell, born to attack
Space ninjas, assassins in black!
Here we are, mad and possessed, bound by the eternal spell
Space ninjas from hell!

Life in agony on the dark side of the sun
We change our destiny, now our time has come
We fight a future war in a new century
From our burning star, we will ride the galaxy

Back from hell, born to attack
Space ninjas, assassins in black!
Here we are, mad and possessed, bound by the eternal spell
Space ninjas from hell!

Back from hell, born to attack
Space ninjas, assassins in black!
Here we are, mad and possessed, bound by the eternal spell
Space ninjas from hell!

Here we are, mad and possessed, bound by the eternal spell
