

# Speedracer

Victorius

My wheels start to burn the road  
Inhale the sweet taste of the dust  
The engine is roaring  
Game reset I am ready for the blast  
A fire inside of me rising high  
Ready to explode  
I feel the power - the energy  
Like a beast out of control

No one can stop the king of the road  
Adrenaline and fuel's reload

I'm a speedracer - chainbreaker  
I am hunting the eye of the storm  
Speedracer - stormchaser  
I can't get enough - my need for speed

Eternity straight ahead  
Man and machine bound to be free  
I gamble with hell - everyday  
That's my way to be  
Horizon so far away  
But we are born to reach the sky  
All that we need - power and speed  
Motor generation breed

No one can stop the king of the road  
I am diving into infinity
