

Total T-Rex Terror

Victorius

With blood and fire
Steel in our hands
All for the kingdom
Berserker mode begins

Spiritus Saurus
Dominion
Sanctus Tyrannus
The battle has begun

Shaking the ground with a mighty strike
Breaking through the silence in the dead of night
Red cyber eyes are lurking in the dark
Steel is crushing bones to dust
Beware the savage claws

We will fight with fury
We will reign in glory
Here we stand, united
Fire from the sky

Like a raging thunderstorm, a beast in its wildest form
Unleash your eternal power
We're forsaken and forlorn, but in flames we are reborn
This is Total T-Rex Terror

Only Dinos will survive

Here we stand, united
Fire from the sky

Like a raging thunderstorm, a beast in its wildest form
Unleash your eternal power
We're forsaken and forlorn, but in flames we are reborn
