

## Restless

## Victory

Fistful of life  
Gave me a power within  
I got a fistful of life  
Only one way to win  
It's just a tough dog eat dog  
No one said it was easy  
Gonna get what I want  
Guess that's just about everything  
Get ready

We're gold-digging tonight  
Boys getting hard  
Girls getting horny  
We're gold-digging tonight  
We play hard we play big  
Lay it all on the line

Line after line  
Wine after wine  
Send them to hell  
See who survives

Restless  
You're restless  
Restless  
So restless

Dealing in lies  
Sometimes the ice gets real thin  
If you let down your guard  
You're gonna pay the price  
It's all about the money  
Honour and pride  
Got a high octane ego  
A word of advice  
Backstab me  
You'll soon know  
What I'll do to you  
Better be ready

We're gold-digging tonight  
Boys getting hard  
Girls getting horny  
We're gold-digging tonight  
We play hard we play big  
Lay it all on the line

Line after line  
Wine after wine  
Send them to hell  
See who survives

Restless  
You're restless  
Restless  
So restless

Line after line  
Wine after wine  
Send them to hell  
See who survives

Restless  
You're restless  
It's all bout death and money  
Restless  
So restless  
Yes we are gold diggin' tonight  
Restless  
You're restless  
Oh yes and I'll be the one who survives  
Restless  
So restless
