

The Hunter

Victory

I'm on the prowl for big game, I've got you in my sites
You know I'm drinking early, I started through the night
My finger's on the trigger, I see the whites of you eyes
My score is bigger, I take you by surprise
I traced you by your sweet scent, And I found your tracks
The way I'm gonna leave it, Don't ever turn your back

I've got you undercover
You say "No, No, No!"
Cause I'm a hungry lover
You say "No, No, No!"

I'm a hunter hunting you
I've got so much for you to lose
I'm a hunter hunting you
You're burning hot and I am too

For me there is no limit, The party last for days
I can see you're a dead one in it, I might get carried away
My guns it's nice to know this, To me it's just a thrill
My finger's on the trigger, I see the whites of you eyes
My mast is growing bigger, I take you by surprise
And soon you will discover, That you're my big game

I've got you undercover
You say "No, No, No!"
Cause I'm a hungry lover
You say "No, No, No!"

I'm a hunter hunting you
I've got so much for you to lose
I'm a hunter hunting you
You're burning hot and I am too
