

Virtual Sin

Victory

Rollin' down the highway, we rock
The girls 're looking pretty the boys know a spot
Watch out, Watch out, tonight
Hell, we're going to rumble in the heat of night
With a bottle of booze we are ready to fight
Watch out, Watch out, tonight

Cruising' down the highway to hell
The boys taunt the devil the girls scream and yell
Watch out, Watch out, tonight
It's dragging' you under you're totally blown
You can't escape the tempting unknown
Watch out, Watch out, tonight
Listen to me!

Touched by virtual sin
Crave the kiss of death
Hear that evil talking
Run to save your life
Touched by virtual sin
Yes, you're out of breath
Hear that evil stalking
Run to save your life

We've tasted blood more than we could chew
Sparkling of a fire which we must go through
Watch out, Watch out, tonight
Rollin' down the highway, we rock
The time is flying but the gas pedal locked
Watch out, Watch out, tonight
Listen to me!

Touched by virtual sin
Crave the kiss of death
Hear that evil talking
Run to save your life
Touched by virtual sin
Yes, you're out of breath
Hear that evil stalking
Run to save your life

Driving down you join a hell of joy
Don't you know you have to follow

Touched by virtual sin
Crave the kiss of death
Hear that evil talking
Run to save your life
Touched by virtual sin
Yes, you're out of breath
Hear that evil stalking
Run to save your life

We've tasted blood, that's how we rock
Long way to go, so watch out
