

Dance Square

Video Age

Creeping in my mind
Creeping in my soul
Something that you only hear one time
And you lose control

It happens again
I'm singing along
Have a good time
I say time and again
Working you hard
Out on the floor
Looking alive
I said and it's alright

Dance square
How can you dance
People dance square
How can you dance alone
Dance square
Dancing like nobody cares
Who really cares

Meet me there tonight
Meet me on that floor
Underneath that neon light
When you get so close

It happens again
I'm singing along
Have a good time
I say time and again
Working you hard
Out on the floor
Looking alive
I said and it's alright

Dance square
How can you dance
People dance square
How can you dance alone
Dance square
Dancing like nobody cares
Who really cares

How can you dance
Just meet me on the floor
How can you dance all alone
I don't want your number
How can you dance
