

Is It Her?

Video Age

How can I be so far from you
When all I see is how happy we could be?
I know a way
I'll hear you call me
It's not too late
I've never been so sure
It's her

Is it her?
Is it her?

Why won't you stay?
Now all I have is that note you gave
The one I'll always save
If not today
We'll share the same dream
From far away
Knocking at my door
From her

Is it her?
Is it her?

How could I mistrust you?
How could I pretend?
That missing you would ever end
You and I both know
Stranger things have happened
A stranger's often closer than the ones you know

Is it her?
Is it her? How can I
