

Pleasure Line

Video Age

I had to move
Thought I couldn't be still
Over the moon
And I'm running downhill
Nowhere to go
I was wandering free
Nothing to show
I was happy to be

I'll let my feet carry me
That's when I found it waiting
On the pleasure line
No time for hesitating
It could be your better life
If you don't see me you know where I am
Out here my heart is racing
On the pleasure line

I found a way
To replace the sun
Sweet serenade
And a kiss all in one
Ocean to see to a beach on the stars
Open and free
You can be who you are

I want to play my guitar
That's when I found it baby
On the pleasure line
I know it might sound crazy
It could be your better life
Baby if you want to
You know where I am
Out here my heart is waiting
On the pleasure line

I think I know what's missing
I need to share this blessing
Come on and join me baby
On the pleasure line
I know it might sound crazy
It could be your better life
If you don't see me
You know here I am
I feel my heart is racing
On the pleasure line
On the pleasure line
On the pleasure line
