

## That Can't Be

Video Age

Look out to the south and you'll see, it's me  
There, turning your doubt to belief

Now what will you do?  
I'm shining for you  
And to tell you the truth  
You're not the only one out here  
No, that can't be

I've been looking down your way  
And I say  
My, what a peculiar shade

Well, it's getting late  
I should be on my way  
But let me just say  
You're not the only one out here  
No, that can't be

I've got feelings and I've been blue  
Thinking of how  
You can't feel when I'm there with you  
You need to see to believe that I'm here  
Breathing the air that you do  
It's true  
Here, sharing a laugh or two

Now what will you do?  
I'm shining for you  
And to tell you the truth  
You're not the only one  
No, no, no  
Oh, that can't be
