

Diamonds

Vidya Vox

Diamonds and gold
Mehndi and Bangles
So beautiful
She moves like an angel
Dance like she don't gotta
Caring the world like
Eh le le le le, le le le lo
Flames reachin' high
But can't touch the fire
Catchin' her eye
Her burning desire
She know she got it
When she sing her song like
Eh le le le le, le le le lo

Look up at the sky
The stars never shine all alone
Tonight is the night
Take a deep breath
Let it go

Eh le le le le, le le le lo
Eh le le le le, le le le lo
Eh le le le le, le le le lo
Eh le le le le, le le le lo

Lost in the night
Your rhythm takes over
Flames in the eyes
Keep driving him closer
Exotic Hypnotic she knows
He's about to move up on her
She got it, she got it
God knows he can't hold back no longer
Dancing so close
The temperature's rising
She just don't know
How sexy that smile is
She knows she's got it
When she sings the song like
Eh le le le le, le le le lo..

Look up at the sky
The stars never shine all alone
Tonight is your night
Just take a deep breath
Let it go

Eh le le le le, le le le lo
Eh le le le le, le le le lo
Eh le le le le, le le le lo
Eh le le le le, le le le lo

Eh le, eh le, eh le, lo
No, no, no, (Eh le, eh le, eh le, lo)
Girl, you're one of a kind (Eh le, eh le, eh le, lo)
I know you're feelin' the vibe (Eh le, eh le, eh le, lo)

Just give me tonight (Eh le, eh le, eh le, lo)
It's the way that you smile (Eh le, eh le, eh le, lo)
Baby, I'm losin' my mind (Shining like gold)
You gotta be mine
Girl, you're one of a kind
I know you're feelin' the vibe
Just give me tonight
It's the way that you smile (Don't shine alone)
Baby, I'm losin' my mind
You gotta be mine
Girl, you're one of a kind (Shining like gold))
I know you're feelin' the vibe
Just give me tonight (Woah)
It's the way that you smile
Baby, I'm losin' my mind

Eh le le le le, le le le lo (Let it go)
Eh le le le le, le le le lo (No)
Eh le le le le, le le le lo (Let it go)
Eh le le le le, le le le lo
Eh le le le le, le le le lo
Eh le le le le, le le le lo
Eh le le le le, le le le lo
Eh le le le le, le le le lo
