

Mad Dreams

Vidya Vox

Hypnotic, dancing in a glass house
Passing through ecstasy
I'm spinning circles on the outside
Look in, the water runs deep

Don't even open my eyes
Moving the stars in the sky
Taking the rhythm and making it mine

Step to the beat of the bells
Keeping them under a spell
Out of control, I'm feeling divine

No escaping
No, I won't break these mad dreams
I'll be dancing, dancing till you find me
Elevated
Elevated feelings
I'll be dancing, dancing in my mad dreams

Keep the waves in motion
Constant cosmic ocean
When I call does it capture your heart?
If I stop will the world fall apart?

Fantasy is pulling me under
Universe of heavenly thunder
And it's lifting my feet off the ground
All I need is to be with you now

Don't even open my eyes
Moving the stars in the sky
Taking the rhythm and making it mine

Step to the beat of the bells
Keeping them under a spell
Out of control, I'm feeling divine

No escaping
No, I won't break these mad dreams
I'll be dancing, dancing till you find me
Elevated
Elevated feelings
I'll be dancing, dancing in my mad dreams

Shadow and light
No space, no time
Two hearts combine
Boundless inside

No escaping
No, I won't break these mad dreams
I'll be dancing, dancing till you find me
Elevated
Elevated feelings
I'll be dancing, dancing in my mad dreams

Mad, mad dreams
Mad dreams
Mad, mad dreams
Mad dreams
