

# Hot Scary Summer

Villagers

Ohh Lord

So you thank me for my hard work  
But you've had it up to there  
'Cos this shouldn't be hard work  
But I'll fight to care if you'd care to fight

Thank you for your hard work  
But I've had it up to here  
'Cos this shouldn't be hard work  
Least not the kind that makes us half a person  
Half a monster  
Stuck together in this hot scary summer

Ohh Lord  
Hot scary Summer  
Ohh

Remember kissing on the cobblestones  
In the heat of the night  
And all the pretty young homophobes  
Looking out for a fight

We got good at pretending  
And then pretending got us good  
We've always been up against it  
But now it's sad to see  
We're up against each other in this hot scary summer

Ohh Lord  
Hot scary Summer  
Ohh

I live inside you  
And you live in me  
And I live inside you  
And you live in me  
And Nothings gonna change that dear  
Nothings gonna change that dear  
Not even being apart  
We travel right to the heart  
Of this Hot Scary Summer

Ohh Lord  
Hot scary Summer  
Ohh

So you thank me for my hard work  
But we've had it up here  
'Cos this shouldn't be hard work  
Least not the kind that make us  
Half a person  
Half a monster  
Stuck together in this hot scary summer
