

In Your Shadow

VIMIC

I'm always standing in your shadow
Even though you are now gone
I was glad to have your shadow
It would shield me from the sun

Go find your peace, my friend
You ran the race until the end
We have not forgotten
You were a giant amongst men

I'm always standing in your shadow
Even though you are now gone
And all I have left is your shadow
I won't mourn what's done is done

Go find your peace, my friend
You ran the race until the end
We have not forgotten
You were a giant amongst men

Everyone would listen when you spoke
But so few had the pleasure to get the joke
Though your heart was black
It was full
Now I can't help but laugh
The way you made death beautiful

Go find your peace, my friend
You ran the race until the end
We have not forgotten
You were a giant amongst men
Go find your peace, my friend
You ran the race until the end
We have not forgotten
You were a giant amongst men

I will always stand inside your shadow
I am standing in your shadow
I will always stand inside your shadow
I am always standing your shadow
