

Parasite Persona

VIMIC

Pride
Comes before the fall
And it will cripple us all
Time
It only exists if you live in the past
The future is now
Fate
Is only a measure
Punishments brought by the choices we make
Safe
No one is safe
Just an illusion a shield made of glass that will break

Life is evil
Everything that can will kill you
We the people
Strapped to the bomb of existence
With so little time

Pray
Pray to your gods
We atheists pray to ourselves
Fear
Paranoia is only delusion
If no one is coming to get you
War, plagues, famine and pestilence
War, plagues, famine and pestilence

Life is evil
Everything that can will kill you
We the people
Strapped to the bomb of existence
With so little time

We're all gonna die
Begging not to die with a gun held to our heads
War, plagues, famine and pestilence
War, plagues, famine and pestilence

Life is evil
Everything that can will kill you
We the people
Strapped to the bomb of existence
We are evil
Parasite persona
We the people
Spread our disease of existence
We're killing it all
