

Alright

Vin Jay

Time to kick back, I've been grinding all week
Up all night, we never getting no sleep
If anyone call, tell 'em I'll be at the beach
Take a deep breath, think I finally found peace, mmh-hm
I've been up in the clouds, don't need a plane ride
All love, what I'm hearing through the grapevine
One life to live, I never waste time
Living in peace, ain't nobody gon' take mine

Tell 'em all we don't got no limits
Let me get a drink on the rocks, I'ma kill it, ay
Let go whatever got y'all tripping
Gotta celebrate for the life y'all living, hey
Yeah, I been on a wave
Back on the beach sipping liquor for days
I ain't worried 'bout the past, I ain't livin' the same
Made a whole lotta money, I'ma give it away
I'ma give it away

And we gon' be just fine
No worries, I'ma take my time
Ain't nobody gon' kill my vibe
Everything's gon' be alright
And we gon' be just fine
No worries, I'ma take my time
Ain't nobody gon' kill my vibe
Everything's gon' be alright

I've been laying on my back so everything is looking up
I just went and made a rack from making music that I love
And then I gave it to the fam and they can use it how they want
I just wanna thank my fans for everything that they've done, mmh-hm
I try to live my life with no regrets
Hoping stress goes away 'cause if it don't the hope is next
I've got this hole in my chest, my heart was stolen, yes
So to stop the bleeding I froze it then put my soul to rest, yeah

But for now I guess I'll live it up
Living every moment like my last, I don't give a fuck
I've got the liquor and the grass fro a pick me up
I took four sips from the glass, not a sippy cup, yeah
I'm kicking back on the beach, just snacking on peach
I'm stressed and I've been at it for weeks so lemme chill
Automatic, I'm attacking the beat
I'm on a hammock, I'm relaxing with breeze
So lemme chill for a second

And we gon' be just fine
No worries, I'ma take my time
Ain't nobody gon' kill my vibe
Everything's gon' be alright
And we gon' be just fine
No worries, I'ma take my time
Ain't nobody gon' kill my vibe
Everything's gon' be alright
