

# Opportunities

Vin Jay

There was a girl, soft lips and them perfect eyes  
Shy chick, not the type to really flirt with guys  
And the type of girl you never wanna hurt with lies  
So if she give me one shot, knew it'd be worth the try  
Thinkin' back to the time of when I met her  
Tried to take her home but I knew she knew better  
Had me like, "Damn", had to tell her who I am  
I ain't seen her with a man so I came up with a plan  
Finally approached her, feelin' in my zone  
Told the bartender, "Give me two shots of Patrón"  
Asked her what her reason was for bein' here alone  
She just laughed until she put her number in my phone  
Then we really started talkin' till the convos got deep  
And now she got me thinkin', "This a girl I'm tryna keep"  
Stayin' up all night together, barely gettin' sleep  
Starin' at the stars on the hood of my jeep  
Now I'm feelin' so blessed that I'm callin' her mine  
Now she fallin' into love and I ain't fallin' behind  
She ain't even gotta say it though, it's all in her eyes  
So I told her that I love her, shit I thought it was time, yeah

I knew I had a real girl and all them hoes fake  
And this little thing we got is what you call fate  
Even started talkin' 'bout gettin' our own place  
So undoubtedly I knew I met my soulmate

Yeah, time passed, she really started to act different  
She would talk on the phone but told me I can't listen  
But I never had a clue what she was hidin'  
And when I tried to talk about it she remained silent, damn  
But I knew that I had to get to the bottom of it  
Not for nothin', the girl was different and I was buggin'  
I figured that if she won't tell me on her own  
All I really gotta do is get my hands on her phone, damn  
What could it be though? I knew she wasn't cheatin'  
She tell me how she feel about me every time we speakin'  
Not to mention that she with me every weekend  
But still I took her phone before I really started tweakin'  
So we could finally talk about it, she won't be distressed  
And everything'll be back to normal so it seemed the best  
Damn, my heart dropped when I seen the text  
Threw the phone, I ain't even wanna read the rest  
It was a text to a cousin up in Maine  
That in a few days she'd be hoppin' on a plane  
Halfway across the globe just to study abroad  
And she don't even wanna tell me? She don't love me at all  
She just walked into the room, I said, "Look what you made me do  
You 'bout to leave forever, you don't even think it through?  
You tryna leave when all my life I wanna stay with you  
And girl if you don't feel the same about me, say it's true"  
What, now I got a couple of days  
Before you leave? Shit, I hope you have a comfortable stay  
And don't worry 'bout me, no I won't jump in your way  
You wanna leave? Good, I 'on give a fuck what you say  
Damn, and how you do this after everything we've been through  
Plannin' for the future, we were talkin' 'bout kids too  
Goddamn, I woulda never believed

That you would lie to my face, straight get up and leave

We just really gotta talk girl, I'm beggin' you, please  
I know there's no girl in the world better for me  
She just looked me in the eyes and put her hands up on my chest  
Prepared to answer and she took a deep breath and said

"If it was up to me, then I would never leave  
I'm not happy about it, I won't pretend to be  
I just know that I gotta do what is best for me  
And if we end up together, then it was meant to be"  
But after everything, who would've thought  
That our love, so beautiful, lost  
Deeper than the waters that I'm soon to be across  
But life goes on and opportunity calls, yeah
