

# Potion

Vin Jay

Haha  
Y'all know I got that potion man  
We've been cooking  
Yeah

Locked and loaded  
Y'all know I got that potion  
It's clear that I've been chosen  
Up in the lab I've been cooking that dope shit  
Like la da da da  
Let it cook, g'on bubble it up  
Ain't nobody been fucking with us  
Aww shit hold it  
Y'all know I got that potion  
Like la da da da

Another day I've been living life in the laboratory  
Sip on the potion, and tell my homie to pass the 40  
Put on the beat then I body it like it's mandatory  
Repeat the cycle each week and I switch the category  
Bitch I'm a sci-fi lyrical Einstein  
All in your girl's phone like I'm limitless WiFi  
Sipping this wine I've been tripling my shine  
Killing the under ground like I'm building a pipeline  
But I'm just tryna have fun and hope it lead to bliss  
And if you ask what I'm doing, I'll probably, plead the fifth  
Cus psilocybin is growing all in my petri dish  
And I just ate them all so can someone tell me what week it is?  
One of a kind and y'all are stale gimmicks  
My rhymes been sharp, they're made to impale critics  
On the road to the top and Ima prevail with it  
And I won't come down no wonder I failed physics

Locked and loaded  
Y'all know I got that potion  
It's clear that I've been chosen  
Up in the lab I've been cooking that dope shit  
Like la da da da  
Let it cook, g'on bubble it up  
Ain't nobody been fucking with us  
Aww shit hold it  
Y'all know I got that potion  
Like la da da da

And I be rolling with a hell of a clique  
Drop flames, epidemics got the chemical mix  
Now the catalog growing and it's getting us rich  
The whole team get paid when the revenue split  
Now that's boss shit run it like cross fit  
Flammable gas up in the lab be cautious  
Respirators on before you step into my office  
Inhaling the fumes you fuck around and get nauseous  
Tryna start a franchise I've been on the scene  
Know I've got my hands tied cooking up beats  
Thought they had it by a landslide til they saw me  
Now their ship about to capsize swimming out to sea  
Look I've been up in solitude

Making hits and popping shrooms  
I don't get time to watch the news  
Knowing I got a lot to prove  
Y'all in my way should probably move  
Yeah  
Or y'all could get rolled over  
I've been tweaking like an addict who is stone cold sober

Locked and loaded  
Y'all know I got that potion  
It's clear that I've been chosen  
Up in the lab I've been cooking that dope shit  
Like la da da da  
Let it cook, g'on bubble it up  
Ain't nobody been fucking with us  
Aww shit hold it  
Y'all know I got that potion  
Like la da da da
