

Prayed Up

Vin Jay

Fuck a nine milli, my ammunition is traumas
I let 'em spray from the hip while they penetrate through my problems
At points, I'm feelin' hollow, should probably seek an asylum
Time for me to get a grip, ain't no boltin' or playin' possum
I been a shell of myself and I can't suppress it
Been lost in revolving thoughts 'till I'm automatically stressin'
This pride of mine is a weapon, idolized and respected
I try to silence it daily while grazing this Smith and Wesson
Then it's one by one then it's two by two
In a war with thoughts and they will never call truce
Scope's locked in and I'm feeling let loose, so I line 'em all up and it's click clack boom
No stoppin' the screams, I'm watchin' em bleed
My sight's 20/20 through this red dot with a beam
Try to come for what I love, you gettin' popped in your sleep
Left a rifle at the crib but got a Glock in my jeans, come on

Came through lookin' like Fire but the boy stay prayed up (Boy stay prayed up)
Down where the money gets found, I'ma see y'all later (See y'all gonna, gonna see y'all)
Swallow my pride, I'm fine, don't do me no favor (Do me no favor)
Came with the devilish smile, but the boy stay prayed up (Boy stay prayed up)

Well, good god
I can't believe I'm alive
You see me walk through the fire
The pain, I pay it no mind
From day to day, like I'm fine
I got your vertebrae shaking the way I stay on my grind
Your teeth are aching, I bring the flavor, the bait and you bite
Now go fish, I'm magnum opus
In corner, four kicks
Act like you know this, I'm ballin' both fists
Still I am oughta be violent, I won't deny it, no shit
The Holy Father won't even bother, I'm washing no sin
But like it like that, you know I'll find my own way back
My soul stay black, until I found my soulmate rap
I'd go make tracks and rock 'em like it's cocaine, crack
I can't be focused on my foes, I got the goals they lack
That's why we
