

# Say Bye To America

Vin Jay

We have been honed into a machine of lethal moving parts that you would be wise to avoid if you know what's good for you  
Americans want this kind of country, Americans want this kind of world, and we stand ready to defend it to protect us, so help us God

Say bye to America  
Praise lies stay quiet or they'll bury ya  
Hate crimes, AI's in your area  
Hey, say bye to America  
No we won't bow we say fuck you  
No we won't bow we say fuck you  
All they want's power but we won't let them win

The land of the free, the home of the brave  
We just declared our independence, now we're openly slaves  
All these corporations tell us how we're supposed to behave  
They just smile in our face while they're digging our graves  
You know the evil is intricate  
Everybody's missing it  
Fuck the citizens let's give the jobs to all the immigrants  
Not the legal ones, the criminals who into twisted shit  
Speak against it then you're racist and a hypocrit  
Demonic fucks in the government and the industry  
Pulling strings, all of us hypnotized by the symphony  
Fucking up our future and hiding all of our history  
Seperating families and sending kids to the infantry  
Control the people with biological weapons  
Profit off of prescription, incetivizing depression  
They're burning down cities with lasers trained from the heavens  
Population control is in full effect for you peasants  
It's a  
Bad dream, bad dream  
Go and get your vaccines  
Blood clots filling up your veins now you can't breathe  
Covid's just the test run what's the plan B  
It sounded like a genocide if you ask me  
The lie's surfacing now and they're all apalling  
Just open up your eyes I swear the truth will make you nauseous  
They'll stage a suicide and blow your brains out for talking  
But I'ma speak truth till my coffin, the people are exhausted

Say bye to America  
Praise lies stay quiet or they'll bury ya  
Hate crimes, AI's in your area  
Hey, say bye to America  
No we won't bow we say fuck you  
No we won't bow we say fuck you  
All they want's power but we won't let them win

They're printing dollars every day we can't avoid it now  
Inflation's stealing all your wealth you can't afford a house  
We trade our life for this money and they just tore it down  
Then lay us off for cheap labor at the border, wow  
The true agenda's just divide and control  
It ain't no wonder why they want us stuck inside of our homes  
They need us, deprived and alone, despising our own  
So they can push another narrative like climate control

It's a chess move, just so they can tell us how to live  
Go buy electric cars so we can shut down the grid  
You've hit your monthly limit for steaks allowed in the fridge  
So feed us fake meat from Bill Gates to your kid  
Shit is more than deceitful it's pure demonic and evil  
Adrenochrome in their blood they don't look at us like we're equals  
Euthanasia with needles  
Policies proving lethal  
Corner the food supply so there's nothing healthy to feed you  
Hope you like eating beetles you peasants, that's what you got now  
Cooking up disease X, here comes another lockdown  
Don't leave your house unless your last name is Rothschild  
This the world that we live in and it's hostile

Say bye to America  
Praise lies stay quiet or they'll bury ya  
Hate crimes, AI's in your area  
Hey, say bye to America  
No we won't bow we say fuck you  
No we won't bow we say fuck you  
All they want's power but we won't let them win
