

Through It All

Vin Jay

Yeah

We still here, we still pushin'
We got obstacles we overcame
They gonna try to bring us down but, but-

But I maneuver through it all (Maneuver through it all)
I swear they wanna see me fall (They wanna see me fall)
I got my back up on the wall (My back up on the wall)
But still, I'ma stand tall, you fuckin' with a boss (Go, go, go, go)
I maneuver through it all (Maneuver through it all)
I swear they wanna see me fall (They wanna see me what?)
I got my back up on the wall (My back up on the wall)
But still, I'ma stand tall, you fuckin' with a boss (Go, go, go, go)
I maneuver through it all

Man, I maneuver through it all
Surrounded by these demons, got my back against the wall
So tell them bitches, "copy down what I say"
Tell 'em, "I don't got the time for no games"
Tell 'em, "I don't want the fame
And I'ma be the same when they drop me down in my grave"
Uh, fuck 'em, I don't need clout
Livin' with a dream gal
Back in the day they would laugh at me
But I'm who they wanna be now
Talkin' with my family but it feels like it's an interview
Try to tell me how to live my life but ya'll are miserable
Product of the hustle, I been grinding through the struggle
If you ever fuckin' doubted, you my rival, you in trouble
Uh, line 'em up and I take 'em down
Tell the fam that I make 'em proud
Everybody wanna talk shit but I bet I roll up and they don't make a sound

I keep it pushin', 'cause life a game of inches
You rappers in my scope and I don't see no competition
Uh, this for my teachers who said I'd never make a difference
Now we makin' more than all them and they cannot pay bare to witness

But I maneuver through it all (Maneuver through it all)
I swear they wanna see me fall (They wanna see me fall)
I got my back up on the wall (My back up on the wall)
But still, I'ma stand tall, you fuckin' with a boss (Go, go, go, go)
I maneuver through it all (Maneuver through it all)
I swear they wanna see me fall (They wanna see me what?)
I got my back up on the wall (My back up on the wall)
But still, I'ma stand tall, you fuckin' with a boss (Go, go, go, go)
I maneuver through it all

Make you feel the struggle, I maneuver through the pain
Been up on the bottom now we finally makin' waves
Now they know they can't debate what I've done
Watch 'em salivate at my funds
Hit 'em with a faster pace 'til I pass away or I'm lacerating my tongue
Uh, I been workin' long nights
Struggle, now we alright
Hungrier than ever, stomach growling, it's a dog fight
Finally bust out the cage

Get a good look, you're no doubt deranged
Hit 'em with the venom, a fool's 'bout to cave
Get up in the booth, a notepad of flames, woo
WPG be the movement, woah
Run that track, I'm the Usain Bolt
To the rap game, but I'm 'bout to lose control
Finna kill everybody with that abusive flow
Ya'll are drippin' rhinestones
I been up in that grind mode
Talk about me like I'm fallin' off
But I'm far from here to my prime, ho

I keep it pushin', 'cause life a game of inches
You rappers in my scope and I don't see no competition
Uh, this for my teachers who said I'd never make a difference
Now we makin' more than all them and they cannot pay bare to witness

But I maneuver through it all (Maneuver through it all)
I swear they wanna see me fall (They wanna see me fall)
I got my back up on the wall (My back up on the wall)
But still, I'ma stand tall, you fuckin' with a boss (Go, go, go, go)
I maneuver through it all (Maneuver through it all)
I swear they wanna see me fall (They wanna see me what?)
I got my back up on the wall (My back up on the wall)
But still, I'ma stand tall, you fuckin' with a boss (Go, go, go, go)
I maneuver through it all
