

# Victory Lap

Vin Jay

This calls for celebration  
It's a victory lap

Reporting live from the top for the nonbelievers  
The flow deadly ain't no need for me to cop a Nina  
I'm dropping ether with lines deep as a wide receiver  
I got em tripping off the rhymes bitch I got sativa

I'm on a wave and getting lit my life's a party boat  
Chasing after all these blue faces no Lucario  
Sorry hoe, witnessing me fail is like a Tyson loss  
I'm the best period, Ill throw these bitches cycles off

The money's passive, I be sleeping making bank  
When the profits this diversified no need to keep a safe  
Y'all can't hold your cash for nothing, y'all bulimic with your cake  
But my mama raised me right I see the green and clean my plate

I'm never satisfied, crush the bucket list and make a new goal  
Hit the booth and let the flames loose like I'm Zuko  
Rap until a fuse blown while capital accrues slow  
Money ain't a joke I'm straight faced until my tombstone

Bitch  
Man fuck this shit  
Yo Kani, you ready to kill em bro?  
Oh Yeah  
Nothing left to say, lets get em  
I like this

Okay  
Reporting live from the bottom  
For the non sleepers  
Where we're all dreamers and nothing can come between us  
I've taken chances  
I've taken charges  
I've taken losses  
If I take advantage  
This whole room will fill up with corpses  
I shoot I never panic  
The whole point of my vantage  
The stars from which I landed  
To you may sound outlandish  
To me out fuckin standing  
That's what happens when you plan it (planet)  
Leave it all to align  
Don't alter designs  
Of divine dynamics  
Johannes  
The grace I give to my zenith  
The string that pulled me off the bench  
Into the regular season  
Now my whole demeanor Willie Beamin  
Akaza I'm really demon  
Words and actions seamless  
I'll dub you all and I really mean it  
Ugh

So gimme the light  
Or pass me the lighter  
As far as me taking it higher  
I showed up with nothing  
But drugs on my rider  
But as your mental advisor  
I don't advise you  
To walk through the fire  
So just move out the way of the torch  
Cause that's what I came here for  
Boy, hahaha
