

Video

Vin Jay

New stamps on my passport
Finally got what I asked for
Crib with the view and a picture of you
On a wall I save my plaques for

Put your feet up on my dashboard
New to love, I need a crash course
Shit gets tough when the past kicks up like sandstorms

I been on my own time
You been on the same
Tell me that you love me girl I hope I never change
Got me through the dark times and through the pain
When you feelin' down, know that I'll be on my way
Said I'll be on my way

Gimmie that light in the dark I see
You can find me when I'm out of here
You're on my mind even when you leave me though
Got it on lock and you got them keys
I'm starstruck, we can run the sea
Livin' our life just like a video

So can we spend a little time
I just wanna catch a vibe
Livin' our life just like a video
Cuz only time I feel alive is
When I got you by my side
Livin' our life just like a video

Pardon my vibe
Girl I been stressed
Haven't been takin' a moment to rest
Gimmie some time
I'll give you my best
My heart on my sleeve, your head on my chest
Swear that's the only place I wanna be
Drinkin' and clubbin' could never compete

Never be slippin'
I keep it consistent
With all of these women who want me to cheat
You know I tell em' all to hit the road
Promise to never get outta control

Cuz that'll be trippin'
We got what they missin
A beautiful life
Two beautiful souls
Won't take it for granted
I know it's a blessin'

Trade it for nothin
That's outta the question
Know what I got
I know what it's worth
And I'm gon protect it

Gimmie that light in the dark I see
You can find me when I'm out of here
You're on my mind even when you leave me though
Got it on lock and you got them keys
I'm starstruck, we can run the sea
Livin' our life just like a video

So can we spend a little time
I just wanna catch a vibe
Livin' our life just like a video
Cuz only time I feel alive is
When I got you by my side
Livin' our life just like a video
