

## Can't Change Me

Vince Neil

I see the headlights on the highway  
I'm standing in the rain  
Gonna hitch a ride to nowhere  
Shake off Mary Jane  
Ashes to ashes  
Leave it in the dust  
Don't worry about missin' me  
You do what you must whoa

Change no you can't change me  
Into something I could never be  
Sure nuff plain to see  
That you can't you can't change me

Are we losing our connection  
Are you somewhere on the line  
Yeah I'm hearing your suggestion  
But it's too late, too late here tonight  
So many reasons  
Everybody's out of time  
I'll take my chances baby  
Ooh ooh and take what's mine

Change no you can't change me  
Into something I could never be  
Sure nuff plain to see  
That you can't you can't change me

You know you're something to see  
But you can't no you can't change me  
You're somewhere in tomorrow  
I'm stuck here in today  
Got more trouble than a man can borrow  
When you're livin' it up livin' in outer space

Change no you can't change me  
Into something I could never be  
Sure nuff plain to see  
That you can't you can't change me

Change you can't change me  
Yeah I bet you're something to see  
But you can't no you can't change me
