Vindata

I hurt a little more
Each time you, you come around
Each time you, you come around
I fall six feet on the ground
And I hurt a little more
Each time you, you come around
Each time you, you come around
I fall six feet on the ground

I hurt a little more
Each time you, you come around
Each time you, you come around
I fall six feet on the ground
And I hurt a little more
Each time you, you come around
Each time you, you come around
I fall six feet on the ground
