One Time

Vindata

You run up in, run up out
I see you different now
You say "how could I ever pass you?"
Ooh, I think that really goes without you sayin'
Shot right through this heart
Hard to get through this guard
See you've been really so patient
Get a feeling I'm embracin'

Never have I been here before
But I just wanna stay here
Just wanna stay here
It's no surprise, I'm undressed at the door
I'm open, baby
Don't have me waitin', waitin' here

We only get to love one time
Basing it on one, one time
I don't wanna face it
If it doesn't come to be what you make it, baby
We only get to love one time
Basing it on one, one time
I don't wanna face it
If it doesn't come to be what you make it, baby

If it doesn't come to be what you make it, baby

If it doesn't come to be what you make it, baby

Took a pit stop on the way to her spot
I don't wanna turn back now
Wanna get that feeling where we left at
You could help me make them sounds, ugh
But everybody wanna bud in sayin' lies
I ain't ever trust nobody anyway
Ooh, I know they so crazy, right? Right

And never have I been here before
But I just wanna stay here
Just wanna stay here
It's no surprise, I'm undressed at the door
I'm open, baby
Don't have me waitin', waitin' here

We only get to love one time
Basing it on one, one time
I don't wanna face it
If it doesn't come to be what you make it, baby

If it doesn't come to be what you make it, baby

If it doesn't come to be what you make it, baby
