# A War Chest And A Propaganda Machine

**Vinnie Paz**

In my life time I've known some war
In my life time I've seen some of the bizarre
I've known suffering, but I've never known of the bizarre
I've never known of suffering like you're going to hear about
And I certainly promise you this: It is war

Yeah, yeah The Black Goat
Fuck outta here
C'mon man
Fuck outta here
Yeah
Divine body, a sacred frame
Violent mind, the brawn, the power of raising Cain
You pray to Kashyapa stay the same
You want the fuckin' drama then say the name
I be in the jungle in Rome
Pumpin' iron on the front lawn, Uncle Jerome
Clickin' at your humble abode
Barbarians in the Empire crumblin' Rome (The fall of Rome!)
Look, your homie will do you dirty
The CEO's pressure when your celly doin' 30
You ain't gotta worry about nothing if you sturdy
This Glock 19 blow the stuffin' through his turkey
It's never personal, all business
It wasn't just talking, you was the star witness
I ain't ever worry at all
I was born with a .44 pa, ready for war

Now who do you know that could flow like I flow
Now who do you know that could flow like I flow
Now who do you know that could flow like I flow
Now who do you know that could flow like I flow
Now who do you know that could flow like I flow

E'rybody dyin' leave your mother here
TMI, Elohim see me on the mothership
Lord Ventrey, I be on some other shit
AI and the sect of semiconductor chips
I tuck a Nighthawk in the bean
14, I got shooters comin' offa the streets
You could see the eyes different if you walk with your D
Mufuckers will resign after loss of the queen
Don't think it can't happen to you
Me and you pa, we was never actually cool
I got cool jeans shootin' out in Napoli too
These is military and they high capacity too
Yeah, Perc 10's, Vicodin bombs
Charlie was an operative and Isaac was bronze
I'm Armageddon, I'm the thunder maker
Greatest threat to mankind since the undertaker

Now who do you know that could flow like I flow
Now who do you know that could flow like I flow
Now who do you know that could flow like I flow
Now who do you know that could flow like I flow
