

Funeral Pyre

Vinnie Paz

Listen homie, I will cut to the chase
You a small fry, you ain't tryin' to rumble with apes
You my son and I was taught that I should run with mistakes
So I left twenty dollars for you under the vase (Here this for you stupid)
See I understand how suffering taste
But you sure if you a batiman, bundle of grapes
I'm a brick of raw, pa, you still fumble with ace
There's a Fifty Cal Desert Eagle under the safe
You don't wanna tussle with Sparta, The Greek Army
I pull the pen out in Iran like I speak Farsi
I'm out to lunch, pa, I ain't able to speak calmly
I always got the cuete, that mean that the heat bombing
Pistol grip goin' for the pump
And shit could get ugly if I'm goin' to the drum
They do in one year what I do in a day
And this miraculous, what Pazienza do with a K

How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)
How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)
How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)
How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)

Vinnie on another level, four star admiral
A 460 Magnum and it's bigger than a caribou
The omnivore, Blackhawk holster is a flashin'
We ain't from the same cloth, we ain't that compatible
You don't want nothin', B, you bangin' with an animal
The Glock 19 on my side like a lateral (Right on my side!)
Shakedown and I'm takin' everything that's valuable
'Cause I be max ammo when I travellin' in and out of here
I got hitters, they from Napanoch to Broadway
No tomfoolery, don't fuck around with horseplay
Neutrality of Mecca when polarity strong
This a yoppa and it's blacker than Sierra Leone
Overseas arms dealer, hit that scheme
And they comin' to America like Prince Akeem
It's two of y'all, batiman, peas in a pod
It's a hundred round drum and it even the odds

How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)
How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)
How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)
How you take the crown from the king? (King?)
You can never take the crown from the king (Never, never, never)
