Vinnie Paz

How would you describe yourself?  
(There's nothing, there is no self)  
And how would you like to be remembered?  
(Doesn't matter)  
What were your dreams as a child?  
(Ahh, nightmares)  
Ahah, yeah, fuck outta here, yeah

There's bodies in the Mojave  
Dispersion of the Ottoman Anabei  
It's Wahhabi in Abu Dhabi  
Abu Shadi and Hammurabi  
You not dumping, homie, you nothin'  
You not punchin' nothin' but buttons  
Little homie got boomed with the mop  
I was with my brother Musa at the Jumu'ah Salah  
Ah, the Benelli a big cannon (Yeah)  
Submachine, Heckler & Koch and the shit whammin'  
I caught an opp with the blick jammin'  
[?] Pablo Holders and pink salmon  
The principles are risking up the visions  
You put the cat among the pigeons  
Rocket launchers and landmines  
Adversity and loss make a man wise, uh

Muhfucka, is you stupid or you dumb?  
I fly to Abu Dhabi with a shotty and the drum  
I ran down in the Maserati in the slum  
If you saw a body then it's probably where I'm from

This a war and the jungle is thick  
A hunnid round drum on the blick  
You gon' step into a puddle of shit  
If it's up then I'm showin' you how ugly it get  
Have faith in the strong emperor  
The names of Allah messenger  
This place is the wrong temperature  
Iodine gas in space and the long nebula  
I got the hawk like I'm Wilkins  
Superiority of Mecca and its buildings  
This Philly, we all poppin'  
Cortez grab the machete and start choppin'  
The spirit of the griever  
Astaghfirullah, that's the fear of a believer  
Send 'em out to see 'em sink  
A chain is only strong as its weakest link, huh
