

## Our Song

Vinyl Theatre

This is our song  
I sing it at night  
These are the best days of our lives  
When you come home  
Everything's right  
These are the best days of our lives

Cold night  
I step into the light  
I'm getting in touch  
With the way I'm feeling  
One talk  
Listen to the walls  
Ghost in the hall  
So I keep on thinking

Sometimes I think I'm going crazy  
Yeah, I don't sleep at night so maybe

When I get up  
I get down  
When I get lost  
I get found

Like the man on the moon  
And the pace of the groove  
And the feel of the beat  
And the sand on my feet

'Cause I will always be the man that you love  
When you're gone  
And I pray that you're safe  
To a God I confess  
That I came from his flesh  
If it keeps you alive  
Keeps you safe in my eyes  
Keeps your love on my mind

Sometimes I think I'm going crazy  
Yeah, I don't sleep at night so maybe

This is our song  
I sing it at night  
These are the best days of our lives  
When you come home  
Everything's right  
These are the best days of our lives

This is our song  
I sing it at night  
These are the best days of our lives  
When you come home  
Everything's right  
These are the best days of our lives

When I get up  
I get down

When I get lost  
I get found

Like the Garden of Truth  
Is the Eden of Youth  
And the fear in my head  
And the fire in my chest  
Says I will always take your hand  
When you're lost and you stray  
And I beg you to stay  
If it means that I'm brave  
Until death do us part  
God, it tears me apart  
Know this love is my verse  
From my heart, 'til I burst

Sometimes I think I'm going crazy  
Yeah, I don't sleep at night so maybe

This is our song  
I sing it at night  
These are the best days of our lives  
When you come home  
Everything's right  
These are the best days of our lives

This is our song  
I sing it at night  
These are the best days of our lives  
When you come home  
Everything's right  
These are the best days of our lives

(Ladies and gentlemen, welcome to the Starcruiser, and now a message from your captain, hello can you hear me? Is this thing on?)

I wanna make you happy  
I wanna learn your name  
I wanna make you famous  
If only in my heart and brain

I wanna make decisions  
I wanna travel the world  
I wanna know you mean it  
When you say that you'll stay for good

I wanna make you happy  
I wanna make you happy  
I wanna make you happy  
I wanna make you happy  
Even when you make me sad

This is our song  
I sing it at night  
These are the best days of our lives  
When you come home  
Everything's right  
These are the best days of our lives

This is our song  
I sing it at night  
These are the best days of our lives  
When you come home

Everything's right  
These are the best days of our lives

(This is our song)
