

Forget Me Nots

Vinylshakerz

Sending you forget me notes
To help you to remember
Baby please for get me not
I want you to remember
Those were good time we had
Sharing the joy that we
thought would last
Memories of love and affection
Everything was just like a dream
Was it the simple things
That made me so crazy about you
Was it your charm or your passion
Its not hard to believe
I love you and need you so Im

Sending you forget me notes
To help you to remember
Baby please for get me not
I want you to remember

Did we give up too soon
Maybe we needed just a little room
And wondering how it all happened?
Maybe we just need a little time
Though we did end as best friends
Given the chance we could find love again
I always love you forever
Its not hard to believe
I love you and need you so Im

Sending you forget me notes
To help you to remember
Baby please for get me not
I want you to remember

Those were good times we had
Filled with love and affection
Please please remember
So crazy about you
Yeah crazy about you
Please please forget me notes
I want you to remember
