

Don't you know how hard
Don't you know how hard I've tried to leave you behind?
But there's a new story every time I look in your eyes
And that's hard to find, I hope that you might

Stay with me tonight

If you're out for the night
Baby, that's alright, I won't put up a fight
Just know that I would like you to be mine
Don't you think that'd be nice, I hope that you might

Stay with me
You're bittersweet
Or something in between
Stay with me

Won't you stay for the night?
You know that I like to bide my time
Maybe we could try, I think that we might
Be something you like, I hope that you'd like

To stay with me
You're bittersweet
Or something in between
Stay with me

Don't you know how hard
Don't you know how hard I've tried to leave you behind?
But there's a new story every time I look in your eyes
And that's hard to find, I hope that you might

Stay with me
You're bittersweet
Or something in between
Stay with me

Stay with me
You're bittersweet
Or something in between
Stay with me
