Drunk

Viola Beach

I've been really trying to put up a fight
Really trying to deal with the night
It never works
I've been trying hard to leave you alone
Trying not to pick up the phone
I always do

I need to get drunk and if you will
It's pretty much unconditional
Is it your love you're giving up?
You're giving up, you're giving up
Yes, I need to get drunk and if you will
It's pretty much unconditional
Is it your love you're giving up?
You're giving up, you're giving up

I know you know
I've been wondering where you go
When you never ring or come home
Ring or come home

I don't ever really know what to say
Must just be something in the way
You look at me
It's so, that's ever running around in my mind
Won't you please just throw me a line?
I'm losing it

I need to get drunk and if you will
It's pretty much unconditional
Is it your love you're giving up?
You're giving up, you're giving up

I know you know
I've been wondering where you go
When you never ring or come home
Ring or come home

Yeah, I know you know
I've been wondering where you go
When you never ring or come home
Ring or come home

Yeah, I know you know
Yeah, I know you know
