

Blind Legion

Violator

I believe in heaven
That's why i'm suffering here
That's why nothing is going to change
Until the day I die

I believe in fate
God give me all these pleasures
Why should I help you
If even Him doesn't care

Obscured lies
Beneath, inside mankind
wanna take part in their legion?
Do want to become blind?

I've got a place for you next to the Lord
Pay the price and save your soul
I have the power to make you live
Follow me or burn alone

I don't need to fight for my rights
Justice will come one day
Keep praying and peace will reign
Or face the God's rage

The more you pray the more you die
The more you pay the more you suffer
The more you agree more you are used
The more you believe more you become blind!
