

# No Shade

Violent Soho

Tell me when you wanna get out  
This ceremony's getting me down

Yeah I'll treat him like a comic book  
Oh that's what you wanna say  
That's all I gotta say

As you know you're right  
You meet your maker every night

I'll save you  
Oh savior no  
I'll save you  
Oh savior no  
I'll save you  
Oh savior no

All I'll say pick me up or I'll levitate  
Weigh me down with your  
Pearly gates  
As you know you can say what you  
Want but I don't have a problem...  
Save me saviour save me saviour

Amateurs are at it again  
Just give me all the rules to the  
Game  
Swipe left when you wanna get out  
That's what you wanna say  
That's all I gotta say

I don't feel so calm  
A heavy hum that rattles ya heart

I'll save you  
Oh savior no  
I'll save you  
Oh savior no  
I'll save you  
Oh savior no

All I'll say pick me up or I'll levitate  
Weigh me down with your  
Pearly gates  
As you know you can say what you  
Want but I don't have a problem  
Save me saviour save me save me again

I'll see you on the flipside  
Ceremony is dead
