

Amphetamines (Use Me)

VIOLENT VIRA

Baby

Could never understand why we're a tragedy
I swallowed all my pride took the amphetamines
We're one the same, you use them like you do with me

Bite into my flesh and tear the skin and tendons
I don't mind
Devour me like you always do

You always knew the truth
We can't say adieu
If no one else can hurt me like you do

Hurt me, use me like you do

Baby

Sever my head and take all the parts that you need from me
Complaisant and silent tell me what a bride to be

Bite into my flesh and tear the skin and tendons
I don't mind
Devour me like you always do

You always knew the truth
We can't say adieu

If no one else can hurt me like you do

Use me, use me like
You do
