

## God Complex

VIOLENT VIRA

I wanna be the true savior  
The one with the terrible demise  
I wanna be the Messiah, Pariah  
The one who never dies  
I wanna be your true love, yes, I'm the only one  
You could cry to all the time  
I could just be who you need, darling, won't you just plead  
Or should I begin to bleed?

God, I could try  
To be the one  
To be the one  
I'll tear down the sky  
What do you want?  
I'll do it all for life  
My love, my alibi  
Tonight, tonight  
I'll try to do it for you

I wanna be a white angel  
The one with two billion of eyes  
I wanna be like a fly on the wall  
To watch you until you die  
I'm gonna be where you are, doesn't matter how far  
Because we are meant to be  
I'm gonna be what you need, darling, please worship me  
Unless you prefer to plead

God, I could try  
To be the one  
To be the one  
I'll tear down the sky  
What do you want?  
I'll do it all for life  
My love, my alibi  
Tonight, tonight  
I'll try to do it for you
