VIOLENT VIRA

You lie to me
Taint everything
You cuddle me
In every need

Fall for me
In memory
These magazines
Tell everything

You take
How do you even stand it
I'll never get a chance, no understanding, yeah
Side of the culture standing
I think it's kinda deadly and romantic, yeah

All alone
I did it, I did it, I know it

Police told me, that you wouldn't do it
That you wouldn't go

You take
How do you even stand it
I'll never get a chance, no understanding, yeeah
Side of the culture standing
I think it's kinda deadly and romantic

Come find me, come
They let it inside me, the bullet in casing hurt me, sound

Side of the culture standing
I think it's kinda deadly and romantic

You lie to me
Taint everything
You cuddle me
In every need
