

Sex Narcissist

VIOLENT VIRA

Masochist conviction
I'm a contradiction
I'm the animal, the primitive
With teeth of ammunition
A god without a father
I'm the holy water
I'm the first, the last, the everything
Your one and only remedy

I-I-I-I
Know I need to stop and contain it
But you never wanna explain it
Feeling numb and fucking frustrated
I-I-I-I
Want it now, you know I'm impatient
It's a matter of time, the enslavement
Come devalue me

So obsessed
I'm doing camera poses
I'm a mess
But god I'm fucking perfect
S.E.X
You know I love it baby
I'm the best
Now don't you wanna hate me?

Now don't you wanna hate me?
Now don't you wanna hate me?
Know you still wanna taste me
Now don't you wanna hate

I love all the faceless
I love all the words
I love all the envy
The bridges it burns
Am I the fixation
That's eroding your brain?
Am I the temptation
That won't go away?

I-I-I-I
Know I need to stop and contain it
But you never wanna explain it
Feeling numb and fucking frustrated
I-I-I-I
Don't know why you bluff when you say it
Get a rush from the drug you call hatred
Hurry up, repent for me

So obsessed
I'm doing camera poses
I'm a mess
But god I'm fucking perfect
S.E.X
You know I love it baby
Come undressed

Now don't you wanna hate me?

Now don't you wanna hate me?
(Oh, I know it)

I know it
I know you say you hate me
You love me and you know it
You motherfuckin' hate me
You love me and you know it
I know you wanna fuck me
You love me and you know it
You motherfuckin' hate me
You love me and you know it
