

## Trap Nest

VIOLENT VIRA

It's my fault  
So maybe  
I'm the cause  
Of breaking  
I'm the reason  
For all wrong and what's right  
How could you let me decide?  
I'm burning baby  
I wasn't fine

It's hypnotic  
So ironic  
We're much fatter when they're feeding us lies  
How could you let me decide?  
A less invasive way to confine  
A kamikaze caught in the wave  
The reason we live is to die someday  
The culmination of what we buy  
Stay pristine in that dress  
While the rest survive

Another rocket  
And it's atomic  
We are dying  
Breathing smoke from the grime  
How could you let me decide?  
A less invasive way to confine  
A kamikaze caught in the wave  
The reason we live is to die someday  
I told you baby I wasn't fine  
The destruction of trust  
Does it hurt to lie?

Oooooohhhhhh!  
Ohhhhhhhhhh!  
How could you let me decide?  
A less invasive way to confine  
A kamikaze caught in the wave  
It's the color of earth  
When we return to the grave
