

BACK TO REALITY

Violette Wautier

They say I'm out of touch with reality
Cause I want love, the type you see in movies
Is it too much
To ask for somebody
Who makes me feel something like it's straight out of a TV screen?

I wanna kiss in the rain
Get drunk on champagne
We'll be dancing outside
Catching midnight trains
I wonder how it feels
To fall in love head over heels

Somebody who loves me right
You and I, Bonnie and Clyde
All of my nights, I bet that
It wouldn't be so cold
If I got you to hold
The one that treats me like
A princess, I'm Juliet
Fireworks when we met
You'd be my Romeo
But then somebody say
"Cut! Get back to reality!"

My friends, they laugh at me
Say I live in La La dream
"The perfect prince
Plot twist! They don't exist"
But we accept the love
We think we deserve
And I know my worth
If it's not good
Then I don't want it at all
I don't want it at all

I wanna be that girl
Standing in front of the boy
Saying yes to all the questions she don't have to ask
Yeah, I'd really like that

Somebody who loves me right
You and I, Bonnie and Clyde
All of my nights, I bet that
It wouldn't be so cold
If I got you to hold
The one that treats me like
A princess, I'm Juliet
Fireworks when we met
You'd be my Romeo
But then somebody say
"Cut! Get back to reality!"

I'll be dressed in white, a perfect bride
Walking down to you, my perfect guy
All my friends who mocked me happy cry
And be like "Oh my god! Surreal but nice!"

I'll be dressed in white, a perfect bride
Walking down to you, my perfect guy
All my friends who mocked me happy cry
And be like "Oh my god! Surreal but nice!"

Somebody who loves me right
You and I, Bonnie and Clyde
All of my nights, I bet that
It wouldn't be so cold
If I got you to hold
The one that who treats me like
A princess, I'm Juliet
Fireworks when we met
You'd be my Romeo
Nobody say "Cut!"
This will be my reality
