

DANCING ON A GRAVEYARD

Violette Wautier

You're living in the shadow
Heart of stone, so cold
All you ever did was take

You're acting like a good guy
Making truth with your lies
What a dark twisted game

Giving you the best of me wasn't enough
Baby tell me what you need
I'd die for your love

So here's my reputation, honey
Take it all
Are you happy? Are you happy?
Want some more?
Here's my heart, my soul, my body
Take it all
Take my life

You're dancing on a graveyard
You're dancing on a graveyard
Having a feast right where you buried me deep
Party in the crime scene, I'm under your feet
Baby you're dancing on a graveyard, graveyard
Dancing on a graveyard
Dancing on graveyard, graveyard
Dancing on a graveyard

Ignored all the warnings
Written on your face
Now headstone over my head
Maybe I was naive
to think that you could be changed

Kissing you is heaven
Loving you is hell
You're the one I'm craving
Like I'm under your spell
You make me crazy daily
I love you, it kills me oh, ohhh

So here's my reputation honey
Take it all
Are you happy? Are you happy?
Want some more?
Here's my heart, my soul, my body
Take it all
Take my life

You're dancing on a graveyard
You're dancing on a graveyard
Having a feast right where you buried me deep
Party in the crime scene, I'm under your feet
Baby you're dancing on a graveyard, graveyard
Dancing on a graveyard
Dancing on graveyard, graveyard

Dancing on a graveyard

What was once holy is haunted
I hope that this is not too late
I've got to getaway way way from you 'cause

You're dancing on a graveyard
You're dancing on a graveyard
Having a feast right where you buried me deep
Party in the crime scene, I'm under your feet
Baby you're dancing on a graveyard, graveyard
Dancing on a graveyard
Dancing on graveyard, graveyard
Dancing on graveyard, graveyard
