

Deep Down

Violette Wautier

I caught you cheating
It's not okay
And I pretend that I forgive you anyway
I had a vision
Of how you die
And I will follow every steps I had in mind

We'll take a trip
We'll go away
We'll get out of routines we have every day
We'll rent a boat
Go for a sail
I'll make sure this story no one lives to tell

Down deep down in the ocean
Down deep down in the sea
There will lie your dead body that used to cheat on me
Down deep down on the ocean floor
You can not breath
I'll be chilling at the beach
Under coconut trees

I caught you cheating
It's not okay
And I pretend that I forgive you anyway
I had a vision
Of how you die
And I will follow every steps I had in mind
