

Deep Down

Violette Wautier

Won't catch me sleeping
It's not ok
It's not my birthday but I'm always getting cake
I had a vision of how we fly
And I will follow every steps I had in mind

I'm on a boat I caught a wave
It doesn't matter what nobody has to say
I will succeed I cannot fail
This is the story that I know they'll live to tell

Down deep down in history
Down deep down you'll miss me
Down deep down in history
Down deep down you'll miss me

As we think about the bottom
While we sit at the top
Laughing at our haters
Cause they thought that we would flop
Now all my fam I got em
They knew that I would pop
They always had my back when others thought that I would stop

Now things flipped flopped
And the drips hot
The crowd gon scream my name
When the bass drop
I'm the wave now I'm getting paid now
My destiny just called I'm on the way

Down deep down in history
Down deep down you'll miss me
Down deep down in history
Down deep down you'll miss me

Had to keep my patience my way is how I did it
Making moves daily
And you know I'm really with it
And they love it when u winning
And I love it I admit it
Wake everyday I make it count
Up like the digits

1,2,3,4 it's 1,2,3 more
Haters talking about me
But I'm currently on tour
The wave is about to come in you the sand that's on the shore

Down deep down in history
Down deep down you'll miss me
Down deep down in history
Down deep down you'll miss me

Won't catch me sleeping
It's not ok
It's not my birthday but I'm always getting cake

I had a vision of how we fly
And I will follow every steps I had in mind

I'm on a boat
I caught a wave it doesn't matter what nobody has to say
I will succeed I cannot fail
This is the story that I know they'll live to tell
