

Love And Money

Violette Wautier

I thought you loved me
You'd stick around to see me complete my dream

I thought you were my friend
You'd stick around til the end
Til the day we die

I thought you loved me
You'd stick around to see me complete my dream

I thought you were my friend
You'd stick around til the end
Til the day we die

You're like family to me
Why did you go I wish you would tell me

I thought you loved me

I thought you loved me
You'd stick around to see me complete my dream

And I thought you were my friend
You'd stick around til the end
Til the day we die

You're like family to me
Why did you go I wish you would tell me

I thought you loved me
I thought you loved me
