

Unstoppably

Violette Wautier

Please, don't come closer to me
Don't say that you miss me
Please don't
I could fall for you

Please, don't call me tonight
I will turn off the light
I will go to sleep before I

Think of you unstoppably
And you know it's wrong cause
You got a girl at home

Please, don't sing to me that way
I've been trying to look away
I'm trying my best

Please, don't hold me so tight
Don't ever turn off the light
And leave me hanging while I

Think of you unstoppably
And you know It's sad cause
I can't have you mine at all

Please, get me back on the ground
We should stop
Chasing clouds
But still I

Think of you unstoppably
And I don't want you
To be one of those
Should have done

But we could only be
Might have been
