

## Defending The Wisdom

Virgin Snatch

We must face the awareness  
Of the forces we head on!  
If we are to be free  
Fully and authentically

I'm really open to debate  
In order to compromise  
And I count on support from you:  
Boldness and fortitude

I believe in prevalence of change  
But wisdom means ability to speak!

Moderate left or right  
Fairness, respect, loyalty  
But the source of weakness is  
A choice between the [next] extremism

You're leading the culture of fear  
The real fear from democracy  
So I don't need evidence  
For a wisdom defense

Spread the knowledge  
Spread the right values  
Spread wisdom  
It's more than philanthropy!

It's time to figure out  
A way to spread ideas  
Which can influence the way  
Political entities make law

We must target a strategy to  
Reach different groups effectively  
By science, practice & theory  
Foolishness kills liberty!

I believe in prevalence of change  
But wisdom means ability to react
