

# Prometheus the Fallen One

Virgin Steele

I have dwelt in Heavens shining realms of bliss  
I have walked the Halls of light  
Once I lived in honor with the Deathless Gods,  
Keeper of a secret sight  
Now I suffer the Wrath, I suffer the Pain for befriending Man  
Proud Rebel Thief, Stealer of Fire, I never kneel  
I have chosen, I bleed for Mankind  
Watch me die, I am the God in Man  
I defied the Father, on his throne of gold  
Now I'm captured here in chains  
And he sends his eagle down to feast again  
On the banquet of my flesh  
Zeus, Rain down your plagues, your unnatural love,  
your unnatural hate  
Blind may I be but eyeless I see what you'll never know  
I am golden, my force flies unseen  
Blood and pride, I am the God in Man  
Ten thousand years or more torment and pain  
Chained to this lonely crag, the champion of slaves  
And you come bearing gifts to me  
Silent as the grave, I receive thee  
And what's the Lie there in your eyes no mercy ...  
And the day dawns in Agony, in silence I wait for my time  
I will never, ever yield to you, you have no power over me ...  
Release me oh release me  
A river of ice a mountain of fire, I'll not reveal the one  
Impaled in the sky forever despised, I'll not reveal the one  
Immortal I die Immortal I die, I'll not give up on Man  
Your son will survive to vanquish your tribe, I RISE!!!  
I am Golden, my blood heals your wounds  
Watch me die, I fear no Gods Wrath  
Cursed and tried, I am the MAN in GOD
